

Integrated Apps & Extensions

from  **Computer Solutions**

Extend Your Sage System. Unlock More Value.

DB Computer Solutions provides a wide range of **Sage add-ons & extensions** that enhance the system experience, including barcode scanning, approvals automation, warehouse tools, reporting solutions & more.

Discover how the right integrations can **streamline workflows, improve accuracy & connect your finance & operations** systems for smarter, more efficient business performance. Below are just *some* of the Integrated Apps & Extensions from DB:

BAR|SCAN: BARCODE & WAREHOUSE AUTOMATION

Bar|Scan is a fully integrated barcode scanning solution designed to streamline stock control & warehouse operations. It connects directly to Sage 50/200, enabling real-time stock updates, improved traceability & faster, more accurate warehouse processes.

Bar|Scan delivers:

- Real-time stock updates directly to Sage
- Barcode creation & label printing
- Goods received & despatched scanning
- Sales order processing & picking
- Stock transfers
- Return & bin management
- Kit & Bill of Materials (BOM) handling

Bar|Scan key benefits:

- Eliminate manual re-entry & paperwork
- Improve stock accuracy & visibility
- Reduce stock take time
- Increase picking & fulfilment speed
- Enhance traceability across locations

sicon

SICON: EXTENDED FUNCTIONALITY FOR SAGE 200

Sicon develops fully integrated modules exclusively for Sage 200, enhancing core functionality across finance, commercial operations & manufacturing. Sicon modules provide deeper control, automation & sector-specific capability - all within your existing Sage system.

Sicon Financials: Streamline Finance & Control Processes

Sicon Financial modules enhance Sage 200's core financial capabilities or introduce fully integrated processing tools.

Integrated Apps & Extensions

from  **Computer Solutions**

Sicon Financials | Modules include:

Roveel

ROVEEL: ADVANCED REPORTING & DRILL-DOWN ANALYTICS

Roveel is a **powerful reporting & analytics solution** designed to transform Sage 50 & Sage 200 data into clear, actionable insights. It integrates directly with Sage, delivering real-time dashboards, automated reporting & deep drill-down visibility at transaction level.

Roveel delivers:

- Seamless integration with Sage
- Automated, customisable reporting
- Drill-down analysis to transaction level
- Real-time dashboards
- Visual reporting
- Secure, cloud-based access from any device

Roveel key benefits:

- Save hours of manual spreadsheet work
- Access any report you need, instantly
- Improve financial visibility & control
- Make faster, data-driven decisions
- Gain deeper insight beyond surface-level numbers

SMARTOFFICE AP: AUTOMATED ACCOUNTS PAYABLE FOR SAGE

SmartOffice AP is an intelligent, secure, web-based solution that automates supplier invoice processing. Fully integrated with Sage, it replaces manual invoice handling with streamlined digital workflows - improving speed, accuracy & control.

SmartOffice delivers:

- Automated supplier invoice processing
- Digital approval workflows
- Automatic statement reconciliation
- Secure web-based document access
- Full integration with Sage 50c & Sage 200 Professional

SmartOffice key benefits:

- Save up to 90% processing time
- Reduce workflow costs by up to 85%
- Eliminate manual data re-entry
- Remove paper storage requirements
- 24/7 secure access to supplier documents
- Fast return on investment

Integrated Apps & Extensions
