AN EERILY GOOD SAGE INTACCT OFFER...

Get **€1,000 off your Sage Intacct** implementation when you sign **before midnight on 31st October.**

The Ghosts of Manual Processes Past Have Returned:

- Month-end is taking weeks to close
- Reports are already out of date before anyone has even read them
- Growing complexity from more entities, locations or currencies
- Spreadsheets are multiplying to fill the gaps your finance software doesn't
- Your software needs constant maintenance

As year-end close creeps closer and 2027 budgeting lurks round the corner, every manual process that was tolerable in summer is starting to feel like something out of a slasher film. **Sage Intacct** is the cloud-native financial management platform built to put the ghosts of manual processes to rest.

The Timing is Frighteningly Good

Q4 is the perfect time to migrate to **Sage Intacct** because the businesses that move now will enter 2027 with real-time visibility, automated AP, and a month-end close that doesn't consume your finance team.

Trick or Treat: Make the move before Halloween and the treat is €1,000 off. Miss the deadline and, well... you know how this ends.

**Offer open to new customers and existing DB Computer Solutions clients alike.*

Book your free **Sage Intacct** demo now, and sign before midnight on 31st October 2026 to claim your €1,000 off.
